

Tasks management

Create phasing

Adding tasks

Simple addition of a task directly to an area

Click on the area label (here “Main facilities”) :

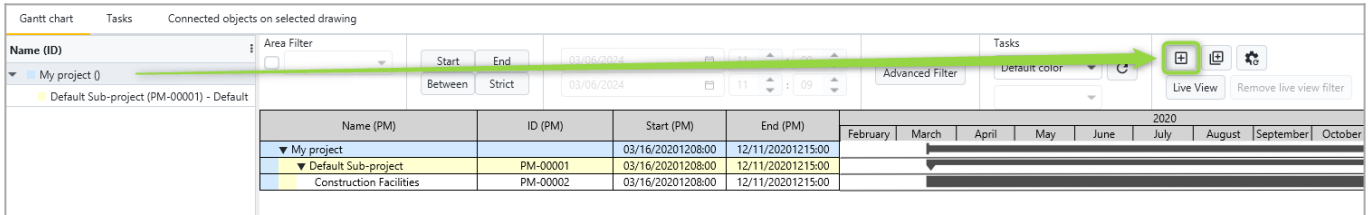

The following window pops up:

Select the activity you want to associate:

Your task is now associated with the area.

Creation of summary tasks

To create a summary task, click on the Project in the left panel explorer of the Gantt chart, then click on the "Add a task" button:

The screenshot shows the 'Tasks' tab in the Phase Manager software. At the top, there are filters for 'Area Filter' and 'Start/End' dates. Below this is a table of tasks. A green arrow points to the 'Add' button (a square with a plus sign) in the top right corner of the task list area.

Name (PM)	ID (PM)	Start (PM)	End (PM)
▼ My project		03/16/2020 12:08:00	12/11/2020 12:15:00
▼ Default Sub-project	PM-00001	03/16/2020 12:08:00	12/11/2020 12:15:00
Construction Facilities	PM-00002	03/16/2020 12:08:00	12/11/2020 12:15:00

In this example we'll create the following summary task:

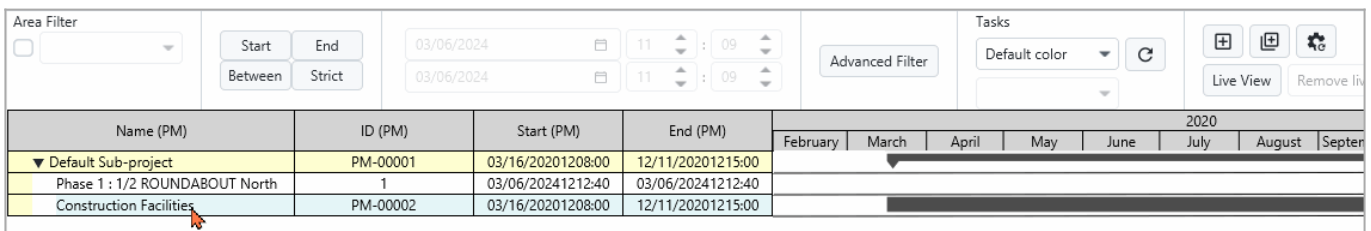

- name: "Phase 1 : 1/2 ROUNDABOUT North"
- ID: '1'

The screenshot shows the 'Task details' form for the new task. The 'ID' field is highlighted with a green box. The 'Name' field contains the text 'Phase 1 : 1/2 ROUNDABOUT North'.

Field	Value
Subproject	Default Sub-project
Summary	Default Sub-project
ID	1
Name	Phase 1 : 1/2 ROUNDABOUT North
Description	

After clicking on OK, you can see in the Gantt chart that the task has been created, but as a simple task. To turn it into a summary task, simply drag and drop a child task into it. Here we'll do it with the "Construction facilities" task:

The screenshot shows the 'Tasks' tab in the Phase Manager software. The 'Construction Facilities' task is highlighted with a green box. The task list shows the hierarchy of tasks.

Name (PM)	ID (PM)	Start (PM)	End (PM)
▼ Default Sub-project	PM-00001	03/16/2020 12:08:00	12/11/2020 12:15:00
Phase 1 : 1/2 ROUNDABOUT North	1	03/06/2024 12:40	03/06/2024 12:40
Construction Facilities	PM-00002	03/16/2020 12:08:00	12/11/2020 12:15:00

Batch import of tasks

With Phase Manager, it is possible to create your tasks directly or to import them from an XLS file through the clip-board.

How to import tasks

Open the file to be imported (in this case Demo Project V5.xlsx), then select and copy into the clipboard all tasks data **header included**:

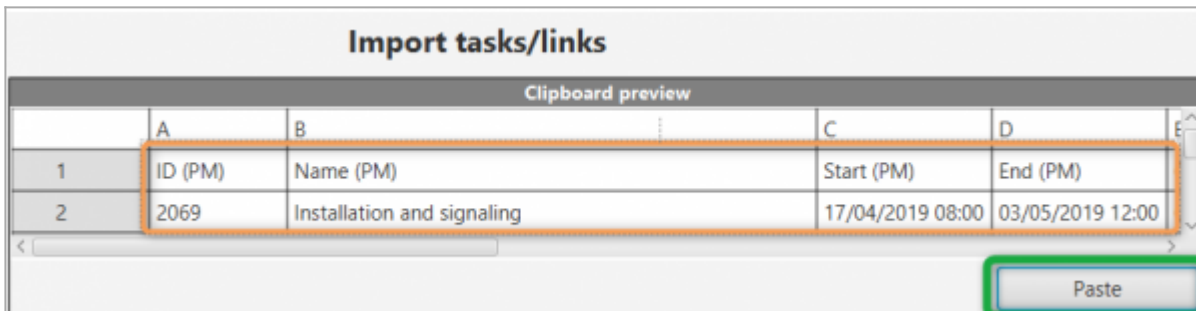

ID	Parent	Name	Start	End	Calendar	Area	Impact	Impact type	Task Template
2	PM-00001	Phase 2 : 1/4 ROUNDABOUT East							
3	PM-00001	Phase 3 : 1/4 ROUNDABOUT West							
31	PM-00001	Phase 3b : ROUNDABOUT Central Platform							
4	PM-00001	Phase 4 : Road - North Lane							
5	PM-00001	Phase 5 : Road - South Lane							
6	PM-00001	Phase 6 : Final Paving							
2069	1	Installation and signaling	17/04/2019 08:00	03/05/2019 12:00	5 days 8 hours calendar	Roundabout North			Signalisation
2097	1	Sidewalks demolition	22/05/2019 08:00	24/05/2019 15:00	5 days 8 hours calendar	Roundabout North : Sidewalks 1			Bordures
2125	1	paving milling and asphalt recycling	25/05/2019 08:00	29/05/2019 15:00	5 days 8 hours calendar	Roundabout North : Sidewalks 1			Revêtements
2153	1	Road widening + drainage	30/05/2019 08:00	01/06/2019 15:00	5 days 8 hours calendar	Roundabout North : Sidewalks 1			Chaussée et canalisations
2181	1	Coating and backfilling excavations	05/06/2019 08:00	07/06/2019 15:00	5 days 8 hours calendar	Roundabout North : Sidewalks 1			Réseaux, remblayages et structure
2209	1	Sidewalks and cobblestone installation	08/06/2019 08:00	08/06/2019 15:00	5 days 8 hours calendar	Roundabout North : Sidewalks 1			Bordures et pavés
2237	1	Topsoil levelling	11/06/2019 16:00	11/06/2019 16:00	5 days 8 hours calendar	Roundabout North : Sidewalks 1			Terre végétale
2265	1	Pavement milling	12/06/2019 08:00	13/06/2019 15:00	5 days 8 hours calendar	Roundabout North			Fraisage
2293	1	Subgrade layer	14/06/2019 08:00	15/06/2019 15:00	5 days 8 hours calendar	Roundabout North			Planie
2321	1	Base layer	19/06/2019 08:00	22/06/2019 09:55	5 days 8 hours calendar	Roundabout North			Couche roulement récap jour
2349	1	Sidewalks coating	22/06/2019 09:55	22/06/2019 14:10	5 days 8 hours calendar	Roundabout North : Sidewalks 1			Revêtements
2377	1	Signaling	22/06/2019 14:10	22/06/2019 15:00	5 days 8 hours calendar	Roundabout North			Signalisation
2405	3	Sidewalks demolition	26/07/2019 08:00	27/07/2019 15:00	5 days 8 hours calendar	Roundabout West : Sidewalks			Bordures
2433	3	Installation and signaling	24/07/2019 08:00	25/07/2019 15:00	5 days 8 hours calendar	Roundabout West			Signalisation
2461	3	Signaling	22/08/2019 08:08	22/08/2019 12:23	5 days 8 hours calendar	Roundabout West			Signalisation
2489	3	paving milling and asphalt recycling	31/07/2019 08:00	31/07/2019 15:00	5 days 8 hours calendar	Roundabout West : Sidewalks			Revêtements
2517	3	Road widening + drainage	01/08/2019 08:00	03/08/2019 14:22	5 days 8 hours calendar	Roundabout West : Sidewalks			Chaussée et canalisations
2545	3	Coating and backfilling excavations	07/08/2019 08:00	08/08/2019 14:22	5 days 8 hours calendar	Roundabout West : Sidewalks			Réseaux, remblayages et structure
2573	3	Sidewalks and cobblestone installation	08/08/2019 14:22	09/08/2019 14:22	5 days 8 hours calendar	Roundabout West : Sidewalks			Bordures et pavés

Explanations:

- 1/ The summary tasks are imported first (IDs 2 → 6)
- 2/ Each task is referred to a summary task, via the "Parent" column.
- 3/ Each task must have a parent: in the absence of a summary task, the subproject (here PM-00001) is then mentioned, which is therefore here the parent of the summary tasks.

Go to the menu **Options > Import tasks/links**.

In the import window that opens, insert the data from the clipboard by clicking on the **Paste** button:

	A	B	C	D	E
1	ID (PM)	Name (PM)	Start (PM)	End (PM)	
2	2069	Installation and signaling	17/04/2019 08:00	03/05/2019 12:00	

Paste

The preview area shows you that the data has been read from the clipboard. You can then assign each column to a Phase Manager field, either manually or by importing an existing exchange profile.

Here we'll load the profile Import ProfileEN.pmx (delivered with your installation).

Click on the **Load profile** button:

Load profile **Profile name:**

Date format: dd/mm/yyyy ☐ Ignore hours

Then browse your hard drive for the exchange profile and click on **Open**.

Then check that the display is as follow:

Profile name:

✔ Column name is in my clipboard selection.

Date format
☐ Ignore hours

Tasks				
<input checked="" type="checkbox"/> Import tasks				
ID	<input type="text" value="ID"/>	Progress	<input type="button" value="Ignore"/>	
Parent ID	<input type="text" value="Parent"/>	Description	<input type="button" value="Ignore"/>	
Name	<input type="text" value="Name"/>	Quantity	<input type="button" value="Ignore"/>	
Calendar	<input type="text" value="Calendar"/>	Quantity unit	<input type="button" value="Ignore"/>	
Start date	<input type="text" value="Start"/>	Workrate	<input type="button" value="Ignore"/>	
End date	<input type="text" value="End"/>	Time unit	<input type="button" value="Ignore"/>	

Additionnal fields

Name	Value	Impact	Impact type	Execution
Area-1	<input type="text" value="Area"/>	<input type="text" value="Ignore"/>	<input type="text" value="Ignore"/>	
Default task ...	<input type="text" value="Task Template"/>			

You see that the fields from you data set have been correctly assigned to the corresponding Phase Manager fields; you can click on the **Import** button at the bottom right of the window and then confirm the import :

 Do you want to import tasks?

Confirmation

Do you want to import tasks?

Note on the warning window:

A window tells you that some fields have not been imported: this is informative, and concerns the empty

fields "Area" and "Dates" for the summary tasks; Area having no meaning, and Dates are inherited from its child tasks:

Avertissements !

The values of the following fields have not been imported:

[1,G] [Warning]	Incorrect zone value, value ignored.
[2,G] [Warning]	Incorrect zone value, value ignored.
[3,G] [Warning]	Incorrect zone value, value ignored.
[4,G] [Warning]	Incorrect zone value, value ignored.
[5,G] [Warning]	Incorrect zone value, value ignored.
[6,G] [Warning]	Incorrect zone value, value ignored.
[1,F] [Warning]	Calendar is empty. Default value: (default calendar)
[1,D] [Warning]	Start date is empty or invalid. Default value: (today's date)
[1,E] [Warning]	End date is empty or invalid. Default value: (today's date)
[2,F] [Warning]	Calendar is empty. Default value: (default calendar)
[2,D] [Warning]	Start date is empty or invalid. Default value: (today's date)
[2,E] [Warning]	End date is empty or invalid. Default value: (today's date)
[3,F] [Warning]	Calendar is empty. Default value: (default calendar)
[3,D] [Warning]	Start date is empty or invalid. Default value: (today's date)
[3,E] [Warning]	End date is empty or invalid. Default value: (today's date)
[4,F] [Warning]	Calendar is empty. Default value: (default calendar)
[4,D] [Warning]	Start date is empty or invalid. Default value: (today's date)
[4,E] [Warning]	End date is empty or invalid. Default value: (today's date)
[5,F] [Warning]	Calendar is empty. Default value: (default calendar)
[5,D] [Warning]	Start date is empty or invalid. Default value: (today's date)
[5,E] [Warning]	End date is empty or invalid. Default value: (today's date)
[6,F] [Warning]	Calendar is empty. Default value: (default calendar)
[6,D] [Warning]	Start date is empty or invalid. Default value: (today's date)
[6,E] [Warning]	End date is empty or invalid. Default value: (today's date)

After closing the import window, you can see that tasks have been imported, and that the WBS matching our imported phases has been created:

Multizone, impact, right-of-way (RoW) and execution mode

Phase Manager enables extensive management of the RoW and impact of tasks. The example below illustrates those new functionalities by creating a daily sequential book.

The task 'RT V1 20+200 - 20+700' below is associated with two areas or axis, namely V1 and V2 :

Task details Dates Areas Other options Links								
Area	Execution	Full axis	Start dist...	End distance	Right-of...	Lengh Bef...	Lengh A...	Impact
V1	Mobile ▾	<input type="checkbox"/>	20.2	20.7	<input checked="" type="checkbox"/>	0.1	0.1	<input type="checkbox"/>
V2	Fixe ▾	<input type="checkbox"/>	20.2	20.7	<input type="checkbox"/>	0.0	0.0	<input checked="" type="checkbox"/>
Ajouter... ▾	▾	<input type="checkbox"/>	0.0	0.0	<input type="checkbox"/>	0.0	0.0	<input type="checkbox"/>

Here are the details of the settings:

V2 axis :

- 'Impact : checked' → the axis is impacted by the task throughout its duration, even if it does not take place there → this impact will be materialized on our deliverable.
- 'Full axis vs KPs : Start and End distance are set' → the impact will only concern a part of the axis (between the distance points set).
- 'Execution : Fixe' → the impact is permanent on the entire segment of the axis throughout the duration of the task.

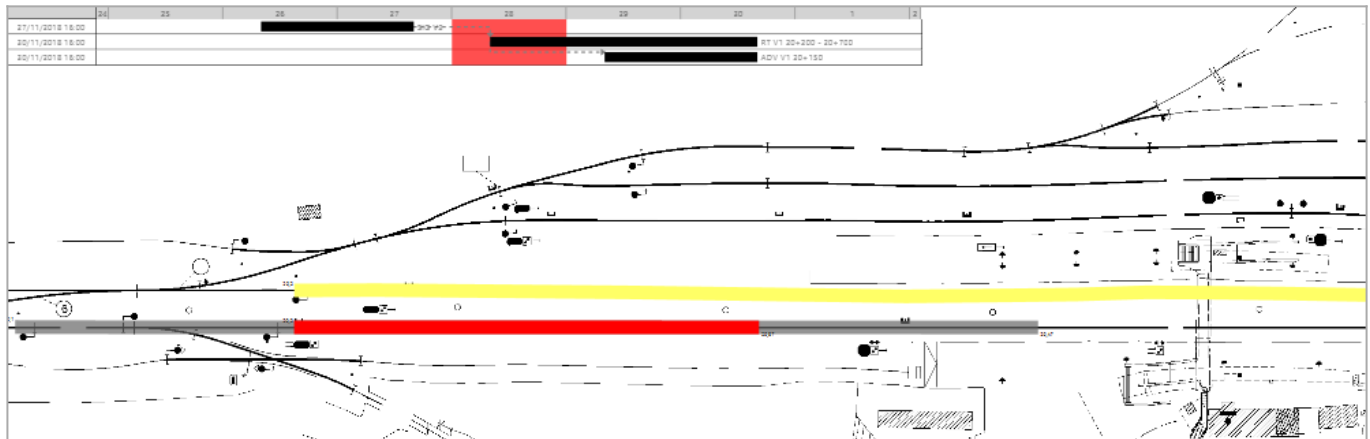

V1 axis :

- 'Execution : Mobile' → the segment occupied on the axis by the task will move (as it lasts 3 days, we will be able to see this progression on the 3 successive pages of the sequential book).
- 'Lenght Before / After : 0.1' → the task will have a 100 m right-of-way before and after the work (this right-of-way will also be displayed on the deliverables).
- 'Full axis vs KPs : Start and End distance are set' → the task takes place on the specified axis portion..

On the first two daily pages of the considered 3-day sequence, we can visualize:

- in yellow: the impact on axis V2
- in red: the task that is progressing on axis V1
- in grey: the Right-of-way of the task on axis V1

Day 1 :

Day 2 :
